Back to School ...

As the summer comes to a close, and your kids big and small head back to school, there are many details to organize. One important aspect to consider for those with college-age students is if your homeowner insurance covers your college student's belongings. For example, would your college student's computer be covered by your homeowners insurance if it was stolen while he or she was away at school? Generally, a homeowner's policy covers any personal property "owned or used by" an insured if it is damaged or lost due to a covered peril. It is important to make sure you know the specifics of your coverage and now is a good time to review your policies to ensure you have the coverage you want and need. Please contact Cheryl Grindle at (864) 331-4400 or cheryl@j-freeman.com to ensure you are properly protected.

Timely Tips ...

Quick Query of the Month

"The Future Secured (TM)" is our company tagline. It is our mission to educate each of our clients by providing timely, relevant and significant insurance and investment information. With that in mind, each month we will pose a question related to some aspect of insurance or investments and **the first person to respond correctly** will receive a "JFA Gem"/ swag souvenir - i.e., a water bottle, travel mug or some other fun item!

So here we go, August's Quick Query of the Month is: Would your auto policy cover you if you were to rent a vehicle while on vacation in Mexico and were involved in an accident?
